

IN THE CLAIMS

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

- 1.-12. (Cancelled).
13. (Currently Amended) Liquid crystal display screen, comprising a first transparent plate and a second transparent plate, joined together and between which is contained liquid crystal, the first plate being mechanically reinforced by an at least partially transparent third plate, wherein the first and the third plates are secured together by way of an adhesive element comprising at least one double-sided adhesive film.
14. (Previously Presented) Display screen according to Claim 13, wherein the adhesive element comprises at least one sandwich-type assembly made of two double-sided adhesive films separated by a layer of a different material.
15. (Previously Presented) Display screen according to Claim 14, wherein the two double-sided adhesive films have identical thicknesses.
16. (Previously Presented) Display screen according to Claim 14, wherein the two double-sided adhesive films have different thicknesses.
17. (Previously Presented) Display screen according to Claim 14, wherein the layer is made of a material having a firmer structure than that exhibited by the double-sided adhesive films.
18. (Previously Presented) Display screen according to Claim 13, wherein the adhesive element is laid out between the first and the third plates around an image zone.
19. (Previously Presented) Display screen according to Claim 18, wherein the layer of different material is made of glass fiber.

20. (Previously Presented) Display screen according to Claim 18, wherein the layer of different material is opaque to light.

21. (Previously Presented) Display screen according to Claim 13, wherein the adhesive element is laid out between the first and the third plates over appreciably an entire available surface area.

22. (Previously Presented) Display screen according to Claim 21, wherein the layer of different material is transparent to light.

23. (Previously Presented) Display screen according to Claim 13, wherein the at least one double sided adhesive film is of the type formed solely by a mass of adhesive substance.

24. (Previously Presented) Display screen according to Claim 13, wherein the at least one double sided adhesive film comprises a supporting film, each face of which is coated with an adhesive substance.
